Elysium: Sunset Supper Club

2/22/2025—The Garou of Cleveland agree to meet the Kindred in hopes of getting answers and insight to the things they found in the temple hidden Reggie's basement. However while the discussions were going on, a group of Demons descended upon the neutral ground, a boat acquired by the Hunter "Pappy", putting their talks on hold as the group feverishly defended their new acquaintances on both sides.

Meanwhile back at Elysium, a ghoul from "Ghoul's Night" delivered Chi's severed head in a box while Marian delivered the ghoul to it's own end. Both the ghoul and Chi's remains were transported to the Tremere Chantry on the islands to be reviewed in hopes of answers as to how the ghouls dispatched Chi earlier in the night. As David made his way back into Elysium after smoothing over and covering up a handful of new kindred incidences, he and Marian lost their cool when one of the Hecata, Sebastian, spoke ill of the thin-bloods within their team making for awkward feelings later when the Magically inclined Vampires and the vampires gifted with forms of clairvoyance reconvened at the Chantry with Rembrandt and Co.

Chi's reflection from a ritual cast by Rembrandt revealed she had been staked and taken apart while feeding downtown, revealing things with "Ghoul's Night" are even more dangerous than the group realized. New speculation on loyalties across this Camarilla and Anarch alliance, as it seems there is a rift forming within the Cleveland Camarilla itself.
